## **Notes to the Financial Statements**

## For the Year Ended 30 June 2017

The financial statements cover NSW Therapeutic Advisory Group Inc as an individual entity. NSW Therapeutic Advisory Group Inc is a not-for-profit Association incorporated in New South Wales under the *Associations Incorporation Act (NSW)* 2009 and Associations Incorporation Regulation (NSW) 2010 ('the Act'). The Association is registered with the Australian Charities and Not-for-Profit Commission (ACNC) as a charity.

The principal activities of the Association for the year ended 30 June 2017 was to promote quality use of medicines by sharing unbiased evidence-based information about drug therapy.

The functional and presentation currency of NSW Therapeutic Advisory Group Inc is Australian dollars.

The financial report was authorised for issue by the Management Committee on 16 October 2017.

Comparatives are consistent with prior years, unless otherwise stated.

#### 1 Basis of Preparation

In the opinion of the Committee of Management, the Association is not a reporting entity since there are unlikely to exist users of the financial statements who are not able to command the preparation of reports tailored so as to satisfy specifically all of their information needs. These special purpose financial statements have been prepared to meet the reporting requirements of the Act. and the *Australian Charities and Not-for-Profit Commission Act 2012*.

The financial statements have been prepared on an accruals basis and are based on historical costs and do not take into account changing money values or, except where stated specifically, current valuations of non-current assets.

The following significant accounting policies, which are consistent with the previous period unless stated otherwise, have been adopted in the preparation of these financial statements.

#### 2 Summary of Significant Accounting Policies

#### (a) Economic dependence

NSW Therapeutic Advisory Group Inc derives a significant portion of its revenue from the NSW Health. During the year ended 30 June 2017, approximately 76% (2016: 80%) of the Association's grant revenue were sourced from the NSW Health. Committee members have no reason to believe that the NSW Health will not continue to provide funding to the Association.

#### (b) Revenue and other income

Revenue is recognised when the amount of the revenue can be measured reliably, it is probable that economic benefits associated with the transaction will flow to the Association and specific criteria relating to the type of revenue as noted below, has been satisfied.

Revenue is measured at the fair value of the consideration received or receivable and is presented net of returns, discounts and rebates.

All revenue is stated net of the amount of goods and services tax (GST).

Government grants are recognised at fair value where there is reasonable assurance that the grant will be received and all grant conditions will be met. Grants relating to expense items are recognised as income over the periods necessary to match the grant to the costs they are compensating.

Interest is recognised using the effective interest method.

Other income is recognised on an accruals basis when the Association is entitled to it.

#### (c) Income tax

The Association is exempt from income tax under Division 50 of the Income Tax Assessment Act 1997.

#### (d) Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, demand deposits and short-term investments which are readily convertible to known amounts of cash and which are subject to an insignificant risk of change in value.

## **Notes to the Financial Statements**

#### For the Year Ended 30 June 2017

#### 2 Summary of Significant Accounting Policies

## (e) Trade and other receivables

Trade and other receivables include amounts due from members and third parties. Receivables expected to be collected within 12 months of the end of the reporting period are classified as current assets. All other receivables are classified as non-current assets.

For trade and other receivables a separate allowance account is used to reduce the carrying amount of receivables impaired by credit loss. After having taken all possible measures of recovery, if management establishes that the carrying amount cannot be recovered by any means, at that point the written-off amounts are charged to the allowance account or the carrying amount of impaired receivables is reduced directly if no impairment amount was previously recognised in the allowance account.

#### (f) Website costs

The website costs have a finite life and is carried at cost until development is complete. Once development is complete it is carried at cost less any accumulated amortisation and impairment losses. It has an estimated useful life of three years.

Amortisation is recognised in profit or loss on a straight-line basis over the estimated useful lives of the website costs, from the date that they are available for use.

Amortisation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

#### (g) Employee benefits

Provision is made for the Association's liability for employee benefits arising from services rendered by employees to the end of the reporting period. Employee benefits that are expected to be wholly settled within one year have been measured at the amounts expected to be paid when the liability is settled.

Employee benefits expected to be settled more than one year after the end of the reporting period have been measured at the present value of the estimated future cash outflows to be made for those benefits. Changes in the measurement of the liability are recognised in profit or loss.

#### (h) Deferred income

The Association receives grants to fund projects either for contracted periods of time or for specific projects irrespective of the period of time required to complete those projects. It is the policy of the Association to treat grants as unexpended grants in the balance sheet where the Association is contractually obliged to provide the services in a subsequent financial period to when the grants are received or in the case of specific project grants where the projects have not been completed.

#### (i) Goods and Services Tax (GST)

Revenue, expenses and assets are recognised net of the amount of goods and services tax (GST), except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO). In these circumstances, the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense.

Receivables and payable are stated inclusive of GST.

The net amount of GST recoverable from, or payable to, the ATO is included as part of receivables or payables in the statement of financial position.

Cash flows in the statement of cash flows are included on a gross basis and the GST component of cash flows arising from investing and financing activities which is recoverable from, or payable to, the taxation authority is classified as operating cash flows.
