Registration of Medicine Access Programs (also known as Product Familiarisation Programs) in NSW public hospitals

Thank you for registering recent Medication Access Program activity with NSW Therapeutic Advisory Group. Registration is not mandatory but recommended by the Council of Therapeutic Advisory Group's Guiding Principles for the governance of Medicines Access Programs in Australian Hospitals issued by CATAG available at <http://www.catag.org.au/resources/>. The information provided below will be confidential and is to be used only to understand Australia-wide access and use of medicines prior to formulary or PBS approval. No data concerning individuals is sought.
